In the event of a change in the User's status (e.g. resale, termination of a lease), the User shall ensure in a reasonable manner that unauthorized continued use by Third Parties is prevented. In particular, it must be ensured that a new User cannot access Charging Data pursuant to the Data Act unless duly authorized. This may include, among other measures, the deletion of relevant user accounts.

4. Use of Charging Data by the User

4.1 The User may only use the Charging Data in accordance with applicable legal provisions (in particular the Data Act and the GDPR) and the terms set out in the Agreement.

4.2 In particular, the User is prohibited from,

For other breaches of duty due to ordinary negligence, the Data Holder shall only be liable for the violation of essential contractual obligations, and such liability shall be limited to damages that are foreseeable and typical for the contract at the time of its conclusion. Essential contractual obligations are those whose fulfilment is necessary for the proper execution of the Agreement, whose breach endangers the achievement of the contractual purpose, and on whose compliance the User regularly relies.
